

COMPANY PRESENTATION

Your partner for logistics

WERATHER LOGISTIKUNTERNEHMEN

Werther Logistik is an independent, family-run transport and logistics company. Stefan and Thomas Werther are already the third generation to ensure, with the support of all employees, the safe and reliable processing of grocery storage and transport.

Our fleet encompasses all segments sought after in the food industry; boxtrailers, refrigerated, silo, and tank vehicles. Thus Werther Logistik is one of a select few who can offer their customers the whole portfolio, including warehouse logistics and logistic services, without having to rely on sub-contractors.

The tank and silo segment of the fleet are used exclusively for food transport. We offer all services related to food transport and tank and silo interior cleaning.

The conventional transport includes all types of goods. We also have great experience in machine and equipment transport.

UNTERNEHMENSGESCHICHTE

- **1933:** Inception of the transport company through the brothers Erich and Karl Werther
- **1975:** Establishment of Werter GmbH. The proprietors were Walter Kliebisch, Manfred Werther and Hans-Henning Werther.
- **1983:** The 50th anniversary saw the inauguration of a new plant in Dieselstr., Sehnde. The company now has 24 employees and 18 trucks.
- **1992:** The grand opening interior tank cleaning facilities.
- **1995:** First reception of the quality management system certificate DIN EN ISO 9002.
- **1998:** The Inception of the NALOG GmbH & Co. KG co-operation in Braunschweig. Werther is one of the four founding members.
- **1999:** Acquisition of the Werther GmbH by Stefan Werther and Thomas Werther.
- **2001:** Foundation of Werther Logistik GmbH & Co. KG.
- **2002:** For the first time we started an apprenticeship for forwarding merchants.
- **2007:** The consortium Werther now has 80 employees in the industrial and commercial sector, including one apprentice wishing to become a merchant for forwarding and logistics services. We have 56 units that are used to fulfil the logistic needs of well-known clients in the food industry.
- **2012:** Takeover of a subdivision of Langhorst GmbH & Co. KG in Wunstorf, including the associated warehouse, workshop and vehicle fleet.
- **2013:** Certification of the whole company by the newest standard of IFS Logistics as well as GMP+ B4.
- **2014:** Reconstruction of the tank interior cleaning facility.
- **2014/15:** Certification of the tank truck interior cleaning system according to SQAS (2014) and the Eftco Food Assessment.
- **2016:** Takeover of the logistics centre Schnedebruch 12, Sehnde
- **2017:** Takeover of a part of the company Kobernuss from Uelzen.
- **2019:** The Werther Logistik GmbH & Co. KG, with around 250 employees, 120 trucks and four warehouses with a total area of 26,000 m², is now one of the largest companies in this branch of industry
- **2020:** Takeover of the company Kobernuss from Uelzen

PHILOSOPHIE

- Responsibility
- Product safety
- Customer focus
- Environmental responsibility
- Sustainability
- Staff responsibility

PARTNER

The NALOG Spedition was founded in 1998.

Through modern and efficient networking, this corporation became a powerful logistics company with a focus on the delicate area of food transport throughout Europe.

WERTHER AND REIMER

combine their know-how and synergies. Today the fleet consists of 250 vehicles for the food oriented silo and tank transport, for temperature regulated palletised and dry goods, as well as warehousing and supply-chain solutions.

SERVICES

Our services at a glance:

- Foot tank transport
- Foot silo transport
- Conventional transport
- Warehousing
- Tanl- and silo interior cleaning

FOOD TANK TRANSPORT

All tractor trailers possess telematics (mobileObjects / Fleetboard). The trailers are used exclusively for the transport of food. The pressure vessels are made from V2A - stainless steel.

Compartments:

1-4 compartments, up to 48 m³ volume.

- e.g. 14/20/14 m³, 10/12/12 m³, 9/12/12 m³, 7/20/5 m³, 9/6/5 m³ etc.
- All chambers can be centrally unloaded towards the back via a fittings cabinet. If necessary several types of products can be delivered at once.

Emptying:

- Inneinboard, mechanical or pneumatic stainless steel floor valves DN 100
- Stainless steel butterfly valve DN 100
- Clutches also made from stainless steel
- Food pump with a stepless adjustable engine
- Sterile filter system
- Compressor (2 bar)
- Possibility of unloading from the side with short outfeed lengths

Heating:

- Pressure Heater with stainless steel heating jackets in the foot of the container

Insulation:

- 100 mm custom insulation consisting of 50 mm custom mineral wool and 50 mm PUR foam.

All common connectors:

- Milk thread
- TW coupling
- Guillemin connectors
- 30m hose DN 50
- At least 5m of hose DN 80
- Electric convertors 32A to 16A and 32A to 64A

Food Law Requirements:

- Complete documentation of carried goods and interior cleaning intervals from acceptance of order until delivery.
- Declaration of conformity for all parts in direct contact with the produce.
- All trailers can be completely sealed

FOOD TANK TRANSPORT

FOOD SILO TRANSPORT

All tractor trailers possess telematics.

The silo trailers, with a volume of 60m³ are used exclusively for the transport of food. They are made of aluminium.

Features:

- Unloading through a compressor on the tractor unit
- The Air, which is used for the exhaustion, is contactless sealed (2 bar)
- All trailers are equipped with a 5 µm stainless steel micro filter
- The air is completely free of oil and dust
- Detachable stainless steel airflow; flexible parts are made of a pressure hose for optimal cleaning

All common connectors:

- Storz A, B, C NW 60, 80, 100 with or without clamping ring
- 5m per hose
- NW 80 and 100

Food law requirements:

- Complete documentation of carried goods and interior cleaning intervals from acceptance of order until delivery.
- Declaration of conformity for all parts in direct contact with the produce
- All trailers can be completely sealed

FOOD SILO TRANSPORT

CONVENTIONAL TRANSPORT

All tractor trailers possess telematics. The curtain and box semi-trailers serve full and part loads, not only in the food sector, but also for machine and equipment transport.

Features:

- Dry box semi-trailers can carry a payload up to 25 tons and have place for 34 palettes
- Sliding curtain semi-trailer with place for up to 34 palettes
- Cooling trailers equipped with a partition and satellite-aided temperature control
- Lifting platforms available on request
- interior height of 2.7m
- Cargo safety following the guidelines DIN-EN 12642, DIN-EN 12195-1 und VDI-Richtlinien 2700 ff
- All trailers equipped with anti-slip mats, straps, clamping plates and bars, locking bars, edge protectors, boxes and sliding curtains come with lashing lugs.

WAREHOUSING

The company has 45,000 m² of storage space and offers

Equipment:

- Computer aided warehouse management
- Scan controlled deposit and retrieval
- Commissioning
- Packaging
- Labelling
- Display construction
- Separate storage of food and non-food items
- Access control according to Food defence

To ensure high flexibility, we offer both shelf and block storage with short and roofed transport distances.

TANK AND SILO INTERIOR CLEANING

We have a SQAS certified facility for the cleaning of food tank and silo trailers with the most modern technology. Other harmless products can be cleaned on arrangement.

Hazardous material will not be accepted on principle!

Equipment:

- 1 cleaning track
- 3 high pressure flushing heads with a water pressure of 100 bar and with vertically and horizontally movable cleaning heads
- Air drying with more than 80 °C, air intake via F5 and F9 filters
- 2 steam connections with a stainless steel micro filter of 5 µm
- UV irradiation of the drinking water, which is used for the cleaning

Additional possible services:

- ATP tests
- Allergy test (CleanCard® PRO)

- pH value measurements
- conductivity measurements

CERTIFICATION

It is our aim to offer consistent service customised to the demands of our clients.

High quality standards in service, security, and hygiene are indispensable to us. We have defined high standards, which are oriented on the demands of the food industry.

Certificates:

- IFS Logistik
- ISO 9001
- GMP + B4
- SQAS Attestation
- Eftco Food Attestation
- Zugelassene Biokontrollstelle
- Kosher Zertifikat
